

Medical Interconnect

cable assemblies - wiring harnesses - power cords

Medical Equipment

The amount of electrical components in modern medical equipments is increasing in numbers every year. Nowadays almost all the equipment in a hospital is by some way electrical. The importance of reliable cable assemblies and wiring harnesses has thus become a high priority in the medical industry. We are a global manufacturer of high quality cable assemblies and wiring harness for medical equipment.

Products

Our wiring harness and cable assembly categories:

Diagnostic Imaging System	Patient Monitoring System	Others
X-ray MR CT PET Ultrasound	ECG/EKG Thermistor Cable SpO2	Ophthalmology Defibrillator Anesthesia Dental Etc...

Custom Design

BizLink specializes in custom design of medical cable assemblies and wiring harnesses. With our vertically integrated business model, we have the capability to develop and manufacture not only the cable assembly, but the connector and wire as well. Currently we are working with major medical equipment manufacturers worldwide on some highly advanced custom designed cable assemblies.

Quality

We maintain in-house QA labs at our main manufacturing facilities which have all the equipment and expertise to perform all mechanical, electrical and environmental tests on all materials and components right on the factory floor. In our assembly line, every cable assembly and wiring harness is handled with the utmost care in order to achieve the highest possible quality. We have RoHS infrastructure in our factories and are ISO9001, ISO14001, ISO13485, TSI6949, UL and CSA certified as well.

Company Profile

BizLink is a global manufacturer of cable assemblies, wiring harnesses. With factories in China, Malaysia and Mexico, and with sales and engineering support in US, Ireland, Japan and Taiwan, we can not only give you all the benefits as an Asian manufacturer, but also serve you as a local manufacturer.
