Photovoltaic

junction box - connector - wire

Photovoltaic

As part of taking the important step to keep in-line with the growing global awareness of the need for energy conservation, and as a response to an increasing demand for solar-generated energy, BizLink has now released a complete series of innovative interconnect solutions for Photovoltaic Modules.

Interconnect Solutions

Within this new product line we have a complete series of junction boxes, connectors and wires for Photovoltaic Modules. Designed to industry standards, and with a versatile compatibility footprint, these interconnect products will be the industry's #1 choice for the future.

Junction Box

Wire or panel termination.
4-6 Ports size.
Protection Class: IP 65.
UV resistant.
RoHS compliant.
TÜV and UL pending.

Connector

Two models.
Unique snap-in and lock.
Protection Class: IP67 (mated).
Low contact resistance.
RoHS compliant.
TÜV and UL pending.

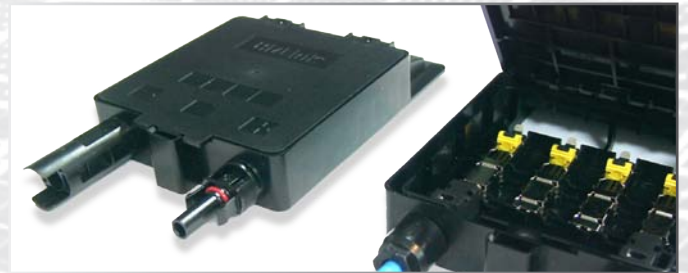

Wire

Industry standard.
Black, blue and red.
Electro beam cross-linked.
UV resistant, fire resistant.
RoHS compliant.
TÜV certified.

Custom Design

BizLink specialises in the custom design of cable assemblies for a wide range of industry sectors. If you are in need of a custom designed solution for your Photovoltaic Module requirements, then we have the capabilities. We know from experience the importance of close dialog with our clients. Furthermore, we are confident that by working together, we will find and deliver the best solution for your needs.

Company Profile

BizLink is a global manufacturer of cable assemblies, wiring harnesses and optical components. With factories in China, Malaysia and Mexico, and with sales and engineering support in US, Ireland, Japan and Taiwan, we can not only give you all the benefits as an Asian manufacturer, but also serve you as a local manufacturer. We have RoHS infrastructure in our factories and are ISO9001, ISO14001, TS16949 (QS9000), UL and CSA certified as well.
